

# My First LaTeX Document

Your Name

April 25, 2024

## 1 Introduction

This is a simple LaTeX document. Here, we will learn how to create sections, subsections, and add some basic formatting.

## 2 Sections

Sections divide your document into logical units. They are numbered automatically.

### 2.1 Subsections

You can also create subsections within sections. They are also numbered automatically.

### 2.2 Formatting

You can use **bold**, *italic*, or underline text easily in LaTeX.

### 2.3 Lists

- This is an item in a bullet list.
  - This is another item.
1. This is an item in a numbered list.
  2. This is another item.

## 3 Conclusion

This concludes our simple LaTeX example. Have fun exploring further!
